

#### Description

The laboratory at Century Hospital, 2070 Test Park, Los Angeles, CA 90067 received a blood specimen from Dr. Radon's office on patient Willow A. Jones for a complete blood count (CBC) test. The patient was identified in the system as a 14 year old white female. The blood specimen was analyzed and the final result revealed critically high WBC of 32,000/uL. Dr. Radon was notified of the critical result by phone and the laboratory included the following comment in the report , "Critically high WBC reported to Dr. Radon by phone the day of the report." The final test result report was generated by the LIS and transmitted to the patient's record in the ambulatory EHR used in Dr. Radon's office.

The following morning, Dr. Radon upon review of results noticed several anomalies with the results and notified the lab. The lab traced the issue back to mislabeled specimens and reissued the report as corrected, indicating that the results were reported on the wrong patient. The laboratory included a comment, stating, "All results previously reported for this patient were reported in error; they do not apply to this patient."

#### PreCondition

the test case LRI\_2.1\_1.1-NG message has previously been sent.

#### PostCondition

No Post Condition.

#### TestObjectives

- Demonstrate the capability to message a valid LRI CBC panel result that indicates that the results are not for the patient identified in the PID segment.

#### Notes to Testers

The order in which the results (OBX segments) are listed is not relevant.

## Test Case Information

## LRI\_2.1\_2.1-NG - Typically Populated CBC message - wrong patient

Test Case ID

LRI\_2.1\_2.1-NG
