

#### Description

The LIS system creates and delivers an electronic lab result message to the EHR-S. This test plan tests the systems' capability to process a "preliminary" microbiology Culture and Sensitivity report.

#### PreCondition

Patient information is pre-loaded in the EHR-S.  
No other Pre-Condition.

#### PostCondition

The test message information received by the EHR-S has been incorporated with the patient's record.

#### TestObjectives

- Demonstrate ability to import and incorporate a preliminary result microbiology message.
