

#### Description

The initial Laboratory Test Compendium is delivered electronically from the LIS to the EHR-S. The EHR-S will integrate the eDOS into its test directory and use it to allow placement of orders electronically. The initial laboratory test compendium is composed of up to five messages.

#### Comments

Initial upload for a new compendium.

#### PreCondition

No Pre-Condition.

#### PostCondition

Data elements are incorporated appropriately into the EHR-S.

#### TestObjectives

- Demonstrate capability to support typically and maximally populated messages including repeating elements for all supported test types.
