DISPLAY VERIFICATION

This Test Case-specific Juror Document provides a checklist for the Tester to use during certification testing for assessing the health information technology's ability to receive and process a MFK M04 message (in response to a MFN M04 message) in which NO Error is returned in the message.

The exact wording and format of the display in the health information technology (HIT) is not in-scope for this test.

Return an Acknowledgement
The receiving HIT system being tested shall process the MFK M04 message correctly; a positive notification indicating that the MFK message was processed correctly <u>need not be made visible</u> in the system.
