

Description

The laboratory at Century Hospital, 2070 Test Park, Los Angeles, CA 90067 received a blood specimen from Dr. Radon's office on patient Willow A. Jones for a complete blood count (CBC) test. The patient was identified in the system as a 14 year old white female. The blood specimen was analyzed and the final result revealed critically high WBC of 32,000/uL. Dr. Radon was notified of the critical result by phone and the laboratory included the following comment in the report , "Critically high WBC reported to Dr. Radon by phone the day of the report." The final test result report was generated by the LIS and transmitted to the patient's record in the ambulatory EHR used in Dr. Radon's office.

Comments

This test case is evaluating the correct use of the status codes in OBR-25 and OBX-11 and the proper handling of OBX-5 values when indicating the prior results were reported for the wrong patient.

PreCondition

No Pre-condition.

PostCondition

No Post Condition.

TestObjectives

- Demonstrate the capability to message a valid final LRI CBC panel result.

Notes to Testers

The order in which the results (OBX segments) are listed is not relevant.
