

#### Description

The Laboratory Test Compendium from Century Hospital Clinical Laboratory is a subset of their Directory of Services. It is based upon the most commonly ordered lab tests by Dr. Radon. This compendium is being used by Dr. Nicholas Radon's practice EHR-S to place orders electronically to Century Hospital's Clinical Laboratory. Century Hospital has made changes to their test compendium:

- Added CPT codes for the Stool culture with susceptibility reflex
- Added CPT codes for the susceptibility panel
- Added CPT codes for the individually orderable stool culture

Century Hospital's LIS transmits the appropriate eDOS update messages with these changes to Dr. Radon's EHR.

#### Comments

Update changes for addition of charge codes (CPT codes) for individually orderable tests as well as the new panels.

#### PreCondition

EDOS\_1.0\_1.1-M08\_New  
and  
EDOS\_1.0\_2.1-M10\_New  
and  
EDOS\_1.0\_3.1-M04\_New  
and  
EDOS\_1.0\_4.1-M18\_New\_Approved  
and  
EDOS\_1.0\_5.1-M18\_New\_Limited  
and  
EDOS\_2.1\_1.1-M08\_Update\_Add  
and  
EDOS\_2.1\_2.1-M10\_Update\_Add  
have been completed.

#### PostCondition

eDOS M08, M10 and M04 data elements are incorporated appropriately into the EHR-S.

#### TestObjectives

- Demonstrate capability to support a M04 update message - action: addition
