

#### Description

Century Hospital's LIS transmits an accept acknowledgement message to Dr Radon's EHR-S which indicates the Application Acknowledgement message has been successfully received.

#### Comments

This is the initial "smoke testing" to reveal simple failures of the acknowledgment message severe enough to preclude further testing.

#### PreCondition

Test case ACK\_0.0\_4.1-NG message has been received by the LIS.

#### PostCondition

No Post Condition.

#### TestObjectives

- Minimally populated message.
- Demonstrate capability to support creating a positive acknowledgment Message in response to successful receipt of the Application Acknowledgment ( ACK ) message:
- Minimally populated MSH Segment - Demonstrate the capability to support the minimally required data elements in the MSH segment.
- Minimally populated MSA Segment - Demonstrate the capability to support the minimally required data elements in the MSA segment.

#### Notes to Testers

No Notes.
