DISPLAY VERIFICATION

This Test Case-specific Juror Document provides a checklist for the Tester to use during certification testing for assessing the health information technology (HIT) module's ability to receive and process an electronic Order Cancellation Notification LOI message that is sent from the laboratory related to the electronic CBC LOI message that was sent to the laboratory. The electronic Order Cancellation Notification LOI message includes the reason for the cancellation.

The exact wording and format of the display in the HIT module is not in-scope for this test.

Process an Acknowledgement

The receiving HIT module being tested shall process the Order Cancellation Notification LOI message correctly. An indicator that the specific CBC order has been cancelled and the reason for the cancellation ("Cancel Order - Broken Lavender Top Tube") must be associated with the CBC order and be visible in the module.
