## Description-

The LIS system creates and delivers an electronic lab result message to the EHR-S. This test plan tests the systems' capability to process a "preliminary" microbiology Culture and Sensitivity report.

## -PreCondition

Patient information is pre-loaded in the EHR-S. No other Pre-Condition.

## PostCondition-

The test message information received by the EHR-S has been incorporated with the patient's record.

## -TestObjectives

• Demonstrate ability to import and incorporate a preliminary result microbiology message.
