Description

Century Hospital's LIS transmits an accept acknowledgement message to Dr Radon's EHR-S which indicates the Application Acknowledgement message has been successfully received.

Comments

This is the initial "smoke testing" to reveal simple failures of the acknowledgment message severe enough to preclude further testing.

PreCondition

Test case ACK_0.0_4.1-NG message has been received by the LIS.

PostCondition

No Post Condition.

TestObjectives

- Minimally populated message.
- Demonstrate capability to support creating a positive acknowledgment Message in response to successful receipt of the Application Acknowledgment (ACK) message:
- Minimally populated MSH Segment - Demonstrate the capability to support the minimally required data elements in the MSH segment.
- Minimally populated MSA Segment - Demonstrate the capability to support the minimally required data elements in the MSA segment.

Notes to Testers

No Notes.
