Description

Dr Radon's EHR-S transmits an application acknowledgement message to Century Hospital's LIS which indicates the ORU message Prothrombin Time (PT + INR) test results has been successfully parsed and incorporated.

Comments

This is the initial "smoke testing" to reveal simple failures of the application acknowledgment message severe enough to preclude further testing.

PreCondition

Patient information is pre-loaded in the EHR-S.
No other Pre-Condition.

PostCondition

Test message for ACK_0.0_5.1-NG will be created.

TestObjectives

- Minimally populated message.
- Demonstrate capability to support creating a positive application acknowledgment Message in response to successful receipt of the ORU message:
- Minimally populated MSH Segment - Demonstrate the capability to support the minimally required data elements in the MSH segment.
- Minimally populated MSA Segment - Demonstrate the capability to support the minimally required data elements in the MSA segment.

Notes to Testers

No Notes.
